FRANK B. SHAW, Treasurer.

REPORT
OF THE
Superintendent of Schools.

There has been but little fault found with the schools during the past year, and why? Because they have been under the instruction of competent teachers, those who entered into their work body and soul, not considering that the easiest is the best way. Most of them were young teachers with reputations to make, and I am glad to say that so far, they have made good ones.

I for one am proud of our schools for the past year. There was not an incompetent teacher in them. To be sure some kept better order than others; some had easier schools to manage than others; but on the whole, our schools were far above the average.

There were some that found fault because there was a change made in arithmetic. I presume it was hard for some, and I am sorry for them, but the advantages arising from the change have been felt in every district and in every class in arithmetic.

If there could be still more uniformity in text books it would more than pay for the expense.

I have heard that there is considerable fault found with the new law. I am glad we have such a law and I do not think there are many people in town who at the end of five years would have it changed whether they have children to send to school or not.

I would repeat what I said last year, that the discipline of all the schools would be better if the influence of the parents were always in favor of good order.

DISTRICT NO. 1,—VILLAGE.

Spring term of nine weeks was taught by Miss Alice R. Ford. Whole number of pupils 42, average daily attendance 37. Whole number of pupils not absent during the term 14. Wages per month \$30.

Summer term, same teacher. Length of school ten weeks. Whole number of pupils 40. Average daily attendance 36. Number of pupils not absent during the term 8. Wages per month \$30.

Miss Ford showed herself a very competent teacher and won the love and respect of all her scholars. Order in her school was a very noticeable feature.

Winter term of nine weeks was taught by Miss Helen A. Montague. Whole number of scholars 36. Average daily attendance 31. No. of scholars not absent during the term 0. Wages per month \$30.00.

Miss Montague's ability as an instructor is of the highest order, but she failed in discipline.

DISTRICT NO. 3,—DICKERSON HILL.

Miss Ida A. Currier taught the spring term. Length of school 8 weeks. Whole number of pupils 16. Average daily attendance 13. Number not absent during the term 4. Wages per month \$19.00.

Although the progress made by the school was good, it lacked order.

Summer term of eleven weeks was taught by Miss Minnie G. Fowler. Whole number of scholars 14. Average daily attendance 12. Number of scholars not absent 5. Wages per month \$19.00.

This was one of the most orderly schools in town and the progress was excellent. Miss Fowler showed herself mistress of the situation.

DISTRICT No. 4,—CENTRE.

Length of spring term seven weeks. Whole number of pupils 9. Average daily attendance 9. Number of pupils not absent during the term 2. Wages per month \$20.00.

Summer term. Length of school 12 weeks. Whole number of pupils 13. Average daily attendance 11. Number of pupils not absent 0.

Miss Flora F. Cilley taught both terms with her usual excellent success.

DISTRICT No. 7,—ADDISON.

Spring term of eight weeks was taught by Miss May E. Jordan. Whole number of pupils 14. Average daily attendance 13. Number of pupils not absent during the term 0. Wages per month \$18.00.

Miss Jordan has taught this school before and gave good satisfaction, and this term was better than those preceding. We hope she will continue in the profession so well begun.

Summer term of three weeks was taught by Miss Mable Welcome. Whole number of scholars 13. Average daily attendance 10. Number not absent 0. Wages per month \$12.75.

The general appearance of the school was good, but the term was too short to mark the improvement of the classes.

DISTRICT No. 8,—BUNKER HILL.

Fall term was taught by Miss Emma A. Cummings. Length of school eleven weeks. Whole number of scholars 4. Number not absent during the term 3. Average daily attendance 3. Miss Cummings kept a good school as usual.

DISTRICT No. 9,—BOROUGH.

Fall term was taught by Miss Mabel I. Simonds. Length of school nine weeks. Whole number of pupils 13. Average daily attendance 10. Number of pupils not absent during the term 0. Wages per month \$20.00.

This was Miss Simonds' first school, but she showed a natural ability for teaching that few have, and her school was a success.

DISTRICT No. 10.—SARGENT.

Spring term was taught by Miss Emma A. Cummings. Length of school 5.8 weeks. Whole number of pupils 7. Average daily attendance 6. Number of pupils not absent 3. Wages per month \$20.00.

Miss Cummings kept good order and a good school.

Fall term was taught by Miss Della L. Prescott. Length of school twelve weeks. Whole number of pupils 9. Average daily attendance 9. Number of pupils not absent during the term 1. Wages per month \$20.00.

The progress made during the term was rapid and thorough, and good order was kept. A good school.

W. F. BALDWIN, *S. S. Committee.*

FARMERS!
